

Many kinds of tracking apps

- [Obtanium](#) ★ - Open-Source Tracker that allow you tracks,get notified and update new releases of open-source apps/tools or releases from github/gitlab releases(some close source also releases on github releases feature)
- [AnyTracker](#) (95%+ PAID, free is if name)- Tracks any things, whatever it is someone social media profile like twitter user, a price change track on amazon product(or if product available currently to buy or not), News, Currency/Crypto Chart, etc.

Its free version provide very less feature that you will hate, you can use MODDED version if you find only. If do find dont forget to share with friends!
