

Spotify (Hehe)

- [Spotx](#) - Spotify mod remove ads and other features for Window
- [xManager](#) - Spotify Mod (Download and Manage mod) for Android
- [Spotube](#) - An open source, cross-platform Spotify client that doesn't require Premium nor uses Electron!
That uses Spotify's data/discovery API and YouTube (or Piped.video) as audio source

Unsupported features :

- Spotify Shows & Podcasts: Shows and Podcasts can never be supported because the audio tracks are only available on Spotify and accessing them would require Spotify Premium.
- Spotify Listen Along: Coming soon!

Audio Editor/Recorder

- [Audacity](#) - Sound recording and post-processing.
- [Ardour](#) - Digital Audio Workstation (DAW).
- [Libre.fm](#) - Stream, download, remix, and share music for free.
- [LMMS](#) - Complete digital audio workstation.
- [mStream](#) - Suite of software for syncing and streaming music across multiple devices.
